

Ascella Technologies, Inc. (Ascella), founded in 2002, is a Minority-Owned Small Business that assists federal agencies with data-driven solutions to their business needs. Ascella provides a combination of innovative technology and domain expertise that empowers agencies to deliver exceptional customer experience and services to the American public with consistency and accountability.

BUSINESS OPERATIONS OPTIMIZATION

Ascella helps federal agencies optimize their core business operations to drive mission success. From Project and Product Management to Agile Transformation Services, our skilled professionals help assess, plan, and implement solutions to maximize business process efficiencies and leverage technology to enhance automation.

DATA AND ANALYTICS

Ascella provides innovative data solutions to federal agencies, allowing them to make informed decisions and achieve improved operational results. We build intuitive dashboards, visualizations, and reports that enable users to drill down and rapidly uncover insights from their organization's data.

FINANCIAL MANAGEMENT

Ascella has extensive knowledge of and experience with federal financial, budget, acquisition, and travel management systems and processes, as well as accounting, budgeting, reporting, and other financial management activities. We provide specialized expertise in CGI's Momentum Suite of solutions, CGI's Federal Financial System (FFS), Oracle's E-Business Suite of solutions, SAP's Profitability and Cost Management, payroll, and budget formulation and execution solutions.

FINANCIAL REGULATORY SUPPORT

Ascella serves as a trusted partner to federal regulatory agencies to help navigate through a rapidly-changing financial landscape. Our experts are highly qualified and experienced in anti-money laundering (AML), cryptocurrency analysis, and forensic accounting. We work with our clients to develop strategies that allow them to stay ahead of the curve and maintain compliance with new regulations.

SOFTWARE DEVELOPMENT AND CLOUD SERVICES

Whether developing innovative solutions using emerging technologies, or maintaining mission-critical legacy applications, Ascella's team of engineers bring deep technical expertise across the full software development lifecycle to build solutions that meet our client's business requirements. With a focus on agile, iterative development, we collaborate with customer stakeholders to consistently deliver value.
